

## PAWEŁ DUTKIEWICZ

Based in Kraków, Poland, Paweł Dutkiewicz is a professor of Kraków Academy of Art and is a grant recipient of the Polish Ministry of Art and Culture. The artist's recent body of work continues to place him in the aesthetic realm of Mark Rothko, Barnett Newman and Ad Reinhardt. In his paintings and spatial installations Dutkiewicz seeks to establish a meditative purity by eliminating all obstacles that could hinder the observer's experience, thus creating a poetically reductive space that brings to mind Japanese landscape painting and the aesthetic, spiritual quality of Buddhist thangka and Byzantine icon.
