Anya Tish Gallery is proud to announce *Light Switch*, a group exhibition by regional and international artists whose works in installation, light sculpture, video and painting function through a sense of duality - a perceptual switch between the static and the moving, the anticipated and the unexpected, creating a labyrinth of visual and conceptual perspectives that both awaken and engage the viewer.

The Artists will be present at the Opening Reception
Friday, December 4, 6:00 – 9:00 PM
