**“Has this ever happened to you** - too much art and nowhere to hang it?  
You struggle all day to find a place and it still sits in the corner.

#### Introducing pocket art!

Stick it anywhere. Fill in empty spaces. Cover holes in walls. Improve tired old artwork.  
AND the best thing - it's not precious. In case of calamity, let it go, buy another,  
after all I'm still alive.

Collect them all: the food series, the pet series, the old-timey photo series  
(for anyone who needs a quick relative), and the science series."
